## What is [Virtual Accounts](#)

Virtual Accounts are the same as bank accounts which accept NEFT / IMPS / RTGS / UPI payment methods which do not have any upper payment limit. Businesses can use virtual accounts to collect high ticket size payments without any reconciliation issues.

## What is UPI

Unified Payments Interface is the leading payment method in India. Alternative to card based payment which dominates the Indian payment ecosystem both offline and online. Used for micro to medium value transactions.

## Payment APIs

Paysharp is an API-first company, Paysharp offers enterprise grade complete APIs for businesses to easily integrate with their application to collect frictionless payments. Paysharp solutions are battle tested and few of the unicorns are their clients.

Paysharp provides a complete collection solution, Paysharp's UPI payment has features such as mobile intent, collection request and dynamic QR code. Businesses can easily integrate UPI or virtual account solutions. Paysharp only charges a flat fee of INR 5 per transaction as platform fee from business, which is a cost-effective alternative to percentage based pricing. Paysharp's payment solution is technically very strong and designed to handle unlimited scales.
