

21-Year-Old Entrepreneur Earns 6-Figures/Month

Nathan Nazareth boasts three e-businesses, including a foolproof exclusive training program to help others realize success by working from home.

VANCOUVER, BRITISH COLUMBIA, CANADA, June 28, 2022 /EINPresswire.com/ -- 21-year-old entrepreneur, [Nathan Nazareth](#), is pleased to announce he is helping others to earn a 6-figure monthly salary – simply by working from home and following his foolproof method.

Nathan Nazareth is a wildly successful entrepreneur from Vancouver, Canada who started a thriving work-from-home business before going to college at the young age of 17. Now, at just 21 years old, Nathan is the founder and CEO of his e-commerce accelerator business for financial freedom, [OutrightEcom](#), which aims to support students in earning 6-figures through DropShipping.

“DropShipping is a business model that simply works,” Nathan says. “Just pick a product of your choice, build a website for it, run your own ads and direct traffic, and then watch the money start rolling in. This is the ultimate way to start a business because you’re not spending thousands of dollars on inventory and only pay for the product once it has been sold. When you sell a product, the supplier handles the rest – all while you bring in the bank.”

According to Nathan, it is this exact method that has taken him from \$0-\$150,000/month in less than two years. After experiencing such remarkable success himself, Nathan’s new mission is to help others get started on their own journey to financial freedom, too.

“After working with many local ecommerce brands, my breakthrough moment came when I generated over \$70,000 in a single week for a local fitness client,” Nathan states.

"I completely changed her life and knew right then that I wanted to help other people's dreams to come true and decided to document my e-entrepreneurship journey on [YouTube](#) and Instagram."

Today, Nathan has supported 167 (and counting) students who have crushed the \$10,000 mark within their first month, simply by working alongside Nathan and his team under the Six-Figure E-Commerce Accelerator Program.
