

Sodium Silicate Market | Overview and Analysis by Top Manufacturers, Industry Share, Regional Demand With Forecast 2029

Data Bridge Market Research analyses the market will stand tall by USD 9.0 million by 2029 to grow at a CAGR of 3.7% in the above-mentioned forecast period.

PUNE, MAHARASHTRA, INDIA, June 28, 2022 /EINPresswire.com/ -- The <u>sodium</u> <u>silicate market</u> is expected to gain market growth in the forecast period of 2022 to 2029. Data Bridge Market Research analyses the market will stand tall by USD 9.0 million by 2029 to

grow at a CAGR of 3.7% in the above-mentioned forecast period.

The Global <u>Sodium Silicate</u> Market report brings into light key market dynamics of the sector. This intelligence report includes investigations based on Current scenarios, Historical records, and Future predictions. The report contains different market predictions related to market size, revenue, production, CAGR, Consumption, gross margin, diagrams, graphs, pie charts, price, and other substantial factors. While emphasizing the key driving and restraining forces for this market, the report also offers a complete study of the future trends and developments of the market. It also examines the role of the leading market players involved in the industry including their corporate overview, financial summary and SWOT analysis. It presents the 360-degree overview of the competitive landscape of the industries. Sodium Silicate Market is showing steady growth and CAGR is expected to improve during the forecast period.

The factors such as increasing demand for detergents globally, accessibility of raw materials such as silica sand, soda ash, and rice husk are the root cause fueling up the market growth rate. The factors expected to cushion the growth of the sodium silicate market in the forecast period are the growing demand from the pulp and paper industry and rising use of liquid sodium silicate as an adhesive in various manufacturing applications. Additionally, the growing demand in wastepaper recycling and rising awareness on hygiene and sanitation are further expected to cushion the overall markets growth. The toxic nature of sodium silicate coupled with accessibility

of substitute compounds for certain applications are expected to impede the growth of the sodium silicate market.

The increasing application of sodium silicates for various detergent operations, including deinking paper, metal cleaning, laundering, textile processing and the growing demand for recycling waste paper are estimated to generate numerous opportunities for the market. On the flip side, the factors such as high storage and transportation cost of liquid sodium silicate are projected to pose as a major challenge to the growth of the sodium silicate market.

Competitive Landscape and Sodium Silicate Market Share Analysis

The sodium silicate market competitive landscape provides details by competitor. Details included are company overview, company financials, revenue generated, market potential, investment in research and development, new market initiatives, global presence, production sites and facilities, production capacities, company strengths and weaknesses, product launch, product width and breadth, application dominance. The above data points provided are only related to the companies' focus related to sodium silicate market.

Some of the major players operating in the sodium silicate market report are Siedziba CIECH S.A., PPG Industries, Inc., Malpro Silica Pvt Ltd., PQ, BASF SE, Oriental Silicas Corporation, Kiran Global Chem Limited., QUIMIALMEL, Silica Gel Co. Ltd., Shayona Land Corporation, Coogee, Tokuyama Corporation, Solvay, corporate.evonik, Silmaco, Occidental Petroleum Corporation, Z. Ch. Rudniki SA., Nippon Chemical Industrial Co., Ltd., and Sahajanand Industries among others.

Global Sodium Silicate Market report provides you with detailed insights, industry knowledge, market forecasts and analytics. The report on the global Sodium Silicate industry also clarifies economic risks and environmental compliance. Sodium silicate (also commonly known as liquid glass or water glass) is basically an inorganic chemical compound formed by the combination of silica and sodium oxide. They are extensively used in various applications including food and pulp and paper, catalyst, detergent, healthcare, elastomers, textiles, silica gels, coating, adhesives, foundry and refractories.

The factors such as increasing demand for detergents globally, accessibility of raw materials such as silica sand, soda ash, and rice husk are the root cause fueling up the market growth rate. The sodium silicate market is segmented on the basis of type, form, grade, application and end

use industry. The growth amongst the different segments helps you in attaining the knowledge related to the different growth factors expected to be prevalent throughout the market and formulate different strategies to help identify core application areas and the difference in your target market.

On the basis of form, the sodium silicate market is segmented into solid sodium silicate and liquid sodium silicate.

On the basis of grade, the sodium silicate market is segmented into neutral and alkaline. On the basis of application, the sodium silicate market is segmented into detergents, precipitated silica, construction, pulp & paper, water treatment, metal casting, food preservation, and others. Others are further segmented into paints and coatings, fire protection, catalyst manufacturing, cosmetics and textile.

On the basis of end use industry, the sodium silicate market is segmented into building and construction, automotive, food and beverage, oil and gas and others.

sive in various manufacturing applications. Additionally, the growing demand in wastepaper recycling and rising awareness on hygiene and sanitation are further expected to cushion the overall markets growth. The toxic nature of sodium silicate coupled with accessibility of substitute compounds for certain applications are expected to impede the growth of the sodium silicate market.

Sodium Silicate Market Country Level Analysis

The sodium silicate market is segmented on the basis of type, form, grade, application and end use industry.

The countries covered in the sodium silicate market report are U.S., Canada and Mexico in North America, Germany, France, U.K., Netherlands, Switzerland, Belgium, Russia, Italy, Spain, Turkey, Rest of Europe in Europe, China, Japan, India, South Korea, Singapore, Malaysia, Australia, Thailand, Indonesia, Philippines, Rest of Asia-Pacific (APAC) in the Asia-Pacific (APAC), Saudi Arabia, U.A.E, Israel, Egypt, South Africa, Rest of Middle East and Africa (MEA) as a part of Middle East and Africa (MEA), Brazil, Argentina and Rest of South America as part of South America.

North America dominates the sodium silicate market owing to the increase in construction and infrastructural activities in the region. Asia-Pacific on the other hand, will continue to however show lucrative growth within the forecast period owing to the growing demand for sodium silicate in food and health care industries in emerging economies and increasing paper and pulp and detergent industries in the region.

The country section of the sodium silicate market report also provides individual market

impacting factors and changes in regulation in the market domestically that impacts the current and future trends of the market. Data points such as consumption volumes, production sites and volumes, import export analysis, price trend analysis, cost of raw materials, down-stream and upstream value chain analysis are some of the major pointers used to forecast the market scenario for individual countries. Also, presence and availability of global brands and their challenges faced due to large or scarce competition from local and domestic brands, impact of domestic tariffs and trade routes are considered while providing forecast analysis of the country data.

Key Indicators Analysed:

Market Players & Competitor Analysis: The report covers the key players of the industry including Company Profile, Product Specifications, Production Capacity/Sales, Revenue, Price and Gross Margin & Sales by Product Types.

Global and Regional Market Analysis: The report includes Global & Regional market status and outlook. Further the report provides break down details about each region & countries covered in the report. Identifying its production, consumption, import & export, sales volume & revenue forecast.

Market Analysis by Product Type: The report covers majority Product Types in the Sodium Silicate Industry, including its product specifications by each key player, volume, sales by Volume and Value (M USD).

Market Analysis by Application Type: Based on the Sodium Silicate Industry and its applications, the market is further sub-segmented into several major Application of its industry. It provides you with the market size, CAGR & forecast by each industry applications.

Market Trends: Market key trends which include Increased Competition and Continuous Innovations.

Opportunities and Drivers: Identifying the Growing Demands and New Technology Porters Five Force Analysis: The report will provide with the state of competition in industry depending on five basic forces: threat of new entrants, bargaining power of suppliers, bargaining power of buyers, threat of substitute products or services, and existing industry rivalry.

Key questions answered in the report:

What will the market development pace of Sodium Silicate market?

What are the key factors driving the <u>Global Sodium Silicate market</u>?

Who are the key manufacturers in market space?

What are the market openings, market hazard and market outline of the market?

What are sales, revenue, and price analysis of top manufacturers of Sodium Silicate market? Who are the distributors, traders, and dealers of Sodium Silicate market?

What are the Sodium Silicate market opportunities and threats faced by the vendors in the Global Sodium Silicate industries?
