

D-Dimer Market Share Forecast to Witness Noticeable Growth at a CAGR of 2.6% by 2027

The hospital segment is increasing the occurrence of blood-related disorders and rising cases of deep-vein thrombosis & pulmonary embolism.

NEWARK, UNITED STATES, June 29, 2022 /EINPresswire.com/ -- A new research report published by Fior Markets with the title [D-Dimer Market by Testing Method \(Laboratory Testing, Point-Of-Care Testing\), Disease Type \(Disseminated Intravascular Coagulation, Pulmonary Embolism, Deep Vein Thrombosis\), End-User \(Diagnostics Laboratories, Research Institutes, Clinics, Ambulatory Surgical Centers, Hospitals, Assisted Living Healthcare Facilities, Home\), Regions, and Global Forecast 2020-2027](#).

The global D-dimer market is expected to grow from USD 754.58 million in 2019 to USD 926.58 million by 2027, at a CAGR of 2.6% during the forecast period 2020-2027. The Asia-Pacific region is expected to grow at the highest CAGR during the forecast period from 2020-2027. This growth is due to factors like increasing initiatives & investments by governments as well as leading organizations to develop health care infrastructure, the introduction of specific & sensitive hemostasis blood markers on automated instruments, and the rising number of patients needing tests for coagulation. On the other hand, the North America region accounted for the major market share of 39% in the year 2019 and is anticipated to grow throughout the projected period. The large share of this segment is attributed to key factors such as growing adoption of automated blood coagulation analyzers for diagnosing diseases like cerebral infarction & myocardial and increasing occurrence of diseases. Another factor is that prolonged sitting in one place can cause swelling, discomfort, and stiffness, which can lead to blood clots and eventually deep vein thrombosis.

Key players in the global D-dimer market are Thermo & Fischer Scientific, Inc., Becton, Dickinson & Company, Bio/Data Corporation, F. Hoffmann-La Roche Ltd., Beckman Coulter Inc., Siemens Healthcare, Trinity Biotech plc., Corgenix, Abbott Laboratories, Inc., Nanogen, among others. Key companies are mainly focusing on developing new products, forming partnerships, and joint ventures to gain significant market share in the global D-dimer market.

The testing method segment comprises of laboratory testing and point-of-care testing. The laboratory testing segment held the largest revenue share of the global market in 2019 and is anticipated to maintain its dominance during the forecast period. Based on disease type, the global market has been divided into disseminated intravascular coagulation, pulmonary embolism, and deep vein thrombosis. Deep vein thrombosis dominated the market and held the largest market share of 37.1% in the year 2019. A growing geriatric population, rising awareness among consumers, and increasing occurrence of diseases are some of the major factors expected to drive growth of this segment over the forecast period. On the basis of end-user, the market has been divided into diagnostics laboratories, research institutes, clinics, ambulatory surgical centers, hospitals, assisted living healthcare facilities, and home. The hospital segment is forecasted to register a CAGR of over 5% due to factors like the rising cases of deep-vein thrombosis & pulmonary embolism and the increasing occurrence of blood-related disorders.
