The veterinary disposables market consists of sales of veterinary disposables by companies that manufacture veterinary disposables. Veterinary disposables are products that are meant for single-use, used for the treatment of diseases in animals.

[Global Veterinary Disposables Market Trends](#)

Companies are increasingly investing in mergers and acquisitions with other players to drive product innovations which is a key trend shaping the veterinary disposables market outlook. According to the veterinary disposables market overview, to succeed in the increasingly competitive market, companies are entering into new geographies and developing innovative products through sharing skills and expertise with other players through acquisitions and mergers. In April 2020, Heska Corporation, a US-based company that manufactures and markets products related to companion animal care, acquired Scil Animal Care for \$125 million. Through this acquisition, Heska Corporation expects to expand in the European region. Social Animal Care is a European company that specializes in the distribution of animal health laboratories and imaging diagnostic products and services.
