

Invest in MeChat Universe, \$30 Million Financial Literacy Game For Students, Residents, and Employees

The ultimate Roadmap To Success helping entrepreneur-minded minorities create wealth.

ATLANTA, GA, UNITED STATES, June 30, 2022 /EINPresswire.com/ -- [MeChat Universe](#), America's fastest growing financial literacy game, announces the addition of a new product, Roadmap To Success.

The Roadmap To Success generates excitement and awareness around financial literacy, adds personal finance as a core competency to everyday life, and supports third-party initiatives that deliver basic financial education and training to every community & school district in the country.

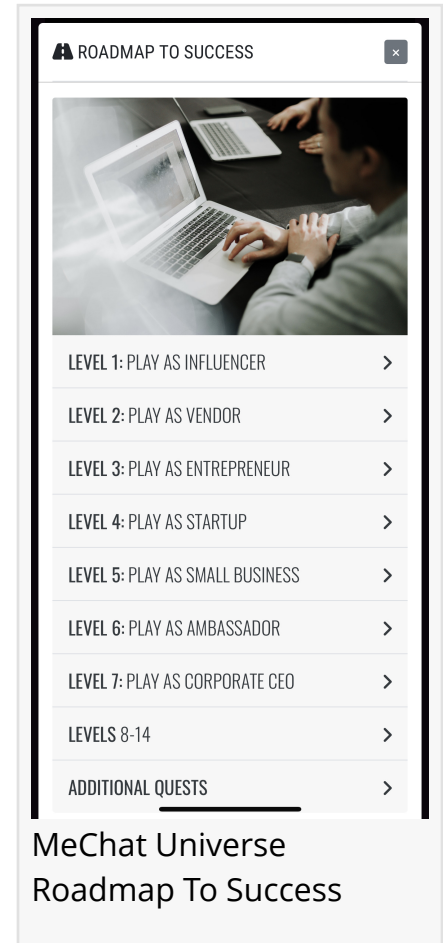

In addition to Financial Literacy, MeChat Universe will use the Roadmap To Success to expand business ownership in minority communities by offering a step-by-step guide to start a business, all without leaving the game.

While Black America represent 12.8% of the U.S. population, only 2.4% are business owners. In comparison, 86.5% of U.S. businesses have white owners.

In addition to low business ownership, Forbes reported, over half of black Americans live paycheck to paycheck and struggle to manage their finances, leaving them in a constant state of economic uncertainty and significant health conditions including stress, heart disease, diabetes, sleep problems and depression.

The lack of financial stability is also costing employers [nearly \\$300 billion annually](#) in lost productivity due to 97% of employees (white and black) admitting to spending significant time working on or worrying about finances at work.

The new Roadmap To Success spurs financial security and economic growth in low income

communities by showing users how to use their skills to create wealth by starting a business, managing its finances, and even exit the business once the business serves its purpose.

Plus, the Roadmap To Success easily integrates with MeChat Universe other online educational tools, which engages and entertains emerging entrepreneurs through the power of storytelling, interactive courses, calculators, videos, and other content to help users visualize starting a business and reach their financial goals.

“MeChat Universe’s Roadmap To Success makes it fun, inclusive, and flexible to focus on starting a business by infusing financial education with purpose, profits, and environmental conditions,” said the game’s creator Antonio James, “Users who take advantage of the Roadmap will take control of their financial freedom by setting up emergency funds, venturing into investing, negotiating deals, and expanding their overall understanding of business and financial matters.”

MeChat Universe officially launches July 3, 2023, yet is valued at \$30 million with 400 business owners and over \$1 million in investments.

With MeChat Universe new Roadmap To Success students, employees, and residents will have the opportunity to hedge against inflation, financial hardships, and poor financial decisions as MeChat Universe becomes the pathway to financial stability, flexibility and security in the lives of everyday Americans.

“

MeChat Universe’ Roadmap To Success makes it fun, inclusive, and flexible to focus on starting a business by infusing financial education with purpose, profits, and environmental conditions.”
