

Data Mynt Mobile Point of Sale (mPOS) Android App Live & Available for Download on Google Play Store

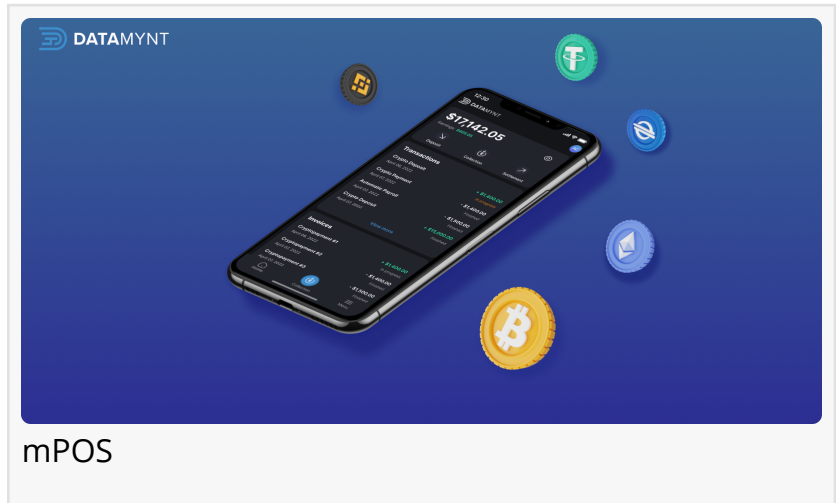

Merchants may now download Data Mynt's Stable Crypto Mobile Point of Sale Android App on Google Play Store to get paid by their crypto customers instantly.

OAKLAND, CA, US, June 29, 2022

/EINPresswire.com/ -- [Data Mynt](#)

mPOS, built on Data Mynt's leading stable cryptocurrency merchant payment and checkout protocol, is now live and available for download on the Google [Play Store](#). The easy-to-use app

interface allows merchants to accept and settle crypto from any customer wallet, including Cash App, PayPal, and Coinbase, with instant settlement and no traditional crypto volatility; no declines; and no chargebacks.

“

With over 85% of merchants seeking to accept crypto as payment, Data Mynt lowers the barrier to entry with enhanced cash management benefits and 24/7 instant settlement and access to revenue.”

Data Mynt CEO, Alex Christian

In addition to using the Data Mynt crypto mPOS app to get paid or as a Cash on Delivery alternative, Data Mynt merchants and partners may also create and send invoices using the mobile app.

“With over 85% of merchants seeking to accept crypto as payment, Data Mynt lowers the barrier to entry with enhanced cash management benefits and 24/7 instant settlement and access to revenue. We’re entering a new digital golden era for merchant & commerce payment services,” noted Data Mynt CEO, Alex Christian.

Download the new mPOS on the Google Play Store [here](#) or connect with Data Mynt today to book a [demo](#)!
