[/EINPresswire.com/](https://EINPresswire.com/) -- Enquire AI, a next generation insights platform that provides the world's leading enterprises with an AI-powered platform to leverage global subject-matter expertise in real time, is proud to announce its inclusion in Mindshare, an exclusive organization designed especially for CEOs of the most promising, disruptive technology and product companies in the Washington, DC metropolitan area.

Founded in 1997 with the mission to help CEOs build long-term, sustainable companies, Mindshare connects select, handpicked CEOs from some of the area's hottest emerging companies, ultimately creating growth opportunities, and fostering collaboration in a collegial environment.

Cenk Sidar, CEO of Enquire AI

"We are delighted to welcome this fantastic new cohort into our powerful network of more than 1,100 CEOs – and do it in person," said Steve Balistreri, Treasurer of the Mindshare Organizing Board. "The volume of nominations and the quality of this class is evidence that entrepreneurs in the region doubled down on innovation during the past two years and are building companies that are as diverse as the region they hail from."

Mindshare received more than 100 nominations for 2022. The new Mindshare class will complete a series of classes, taught by notable speakers, on building a business as a CEO.

The new cohort was welcomed by Ted Leonsis and the Mindshare Board at a kick-off event on March 16, 2022 at Capital One Arena.

The Mindshare Board's Executive Committee includes Harry Glazer of Sprockit; April Young of

Hercules Capital, Inc.; Steve Balistreri of Morgan Franklin Consulting and Michael Lincoln and Katherine Ferguson both of Cooley, LLP. Mindshare is supported by a board of industry veterans who are committed to building a strong ecosystem for success.
