

# Regenerative Medicine Market to Grow at 15.9% CAGR by 2030 Driven by Suppliers and Sales Statistics

*Increasing adoption of gene-based therapies and tissue engineering approaches in clinical settings is a key factor driving regenerative medicine market*

VANCOUVER, BC, CANADA, June 30, 2022 /EINPresswire.com/ -- The Global [Regenerative Medicine Market](#) is projected to reach USD 6.49 billion in 2027. The treatment of specific indications and chronic conditions is expected to have significant effects on healthcare. Therefore, a high

prevalence, combined with increasing global geriatric population and cancer, neurodegenerative, orthopedic and other aging-related disorders drive market growth. In addition, the increasing prevalence of genetic diseases inherited in the field of biotechnology is expected to increase demand.

Regenerative Medicine Market Size – USD 9.80 Billion in 2021, Market Trends – Increasing investments toward Research & Development activities for Tissue Engineering and Regenerative Medicine”

*Emergen Research*

Emergen Research Logo

The variety of applications, as well as major advances in tissue engineering, stem cells, gene therapy, drug discovery and nanotechnology are expected to give the regenerative medicine field considerable attention. 3D printing, for example, is favored rather than scaffolding with stem cells to restore organic structure and functional properties.

Owing to the availability of various drugs and their use in simple chronic healing of the wounds, dermatology is expected to have the largest market

share in revenue in 2018. Due to the existence of a large pipeline of regenerative drugs for treatment of carcinoma, oncology, on the other hand, is expected to grow over the forecast timeframe in the fastest CAGR.

North America had the largest share of revenue of regenerative medicines in 2019 and its dominant position is expected to continue in the forthcoming period. A large number of universities and academic organizations are expected to fuel development by exploring various stem cell-based regenerative approaches.

The report also discusses key players involved in the market, such as:

Integra LifeSciences Corporation

Astellas Pharma Inc.

Corline Biomedical AB

COOK BIOTECH, INC.

Bayer BV

Abbott

AstraZeneca

F. Hoffmann-La Roche Ltd

Pfizer Inc

Merck & Co., Inc.

others

Key insights presented in the report:

Market revenue shares by major business players, by type, by application, and market scope of global Regenerative Medicine market

Sales revenue by key players and new entrants

Competitive analysis of key players, including aspects such as company overview, product or

services specification, vendors, and buyers

Recent mergers, acquisitions, product launches, recent investments, and joint ventures

Regional analysis to provide insight into recent trends and opportunities

The report provides comprehensive details about the market with respect to overall revenue, sales and consumption, pricing trends, gross margins, growth rate, and market size. Additionally, the report also covers details of the company, such as sales and distribution area, product portfolios, specifications, and others.

Further key findings from the report suggest

CVD's incidence in the coming years will dramatically increase with increased use of sedentary lifestyles, a changing eating patterns and many persons with major CVD risk factors.

The use of primary cell-based therapies and developments in the stem cell and progenitor cell therapies has contributed to therapeutics dominating the consumer segments.

In March 2018, Hitachi Chemical signed an agreement for the clinical manufacturing of regenerative medicinal products produced by companies in the respective Japanese and US markets with the Daiichi Sankyo and the SanBio Group.

For the purpose of this report, Emergen Research has segmented into the global Regenerative Medicine Market on the basis of Product, Therapeutic Category, Application, and region:

Product Outlook (Revenue: USD Billion; Volume: Million Tons; 2017-2027)

Therapeutics

Tools

Banks

Services

Therapeutic Category Outlook (Revenue: USD Billion; Volume: Million Tons; 2017-2027)

Dermatology

Musculoskeletal

Immunology & Inflammation

Oncology

Cardiovascular

Ophthalmology

Others

Application Outlook (Revenue: USD Billion; Volume: Million Tons; 2017-2027)

Musculoskeletal Disorders

Wound Care

Oncology

Ocular Disorders

Diabetes

Regional Outlook (Revenue: USD Billion; Volume: Million Tons; 2017-2027)

North America

U.S.

Canada

Europe

UK

Germany

France

BENELUX

Asia Pacific

China

Japan

South Korea

Rest of APAC

Latin America

Brazil

Rest of LATAM

MEA

Saudi Arabia

UAE

Rest of MEA

Key Questions Answered in the Report:

What will be the estimated growth rate of the Regenerative Medicine market by 2027?

Who are the prominent distributors, vendors, and manufacturers of the market?

What are the driving and restraining factors of the growth of the Regenerative Medicine market throughout the forecast period?

What are the current and future market trends of the Regenerative Medicine market?

What are the sales and price analysis of the product by types, applications, and regions?

What are the expected opportunities for the companies and new entrants in the coming years?

Thank you for reading our report. Customization of this report is available according to the requirement of the clients. For further queries or information regarding this report, please get in

touch with us, and our team will provide you with optimal research solutions.

## About Emergen Research

At Emergen Research, we believe in advancing with technology. We are a growing Marketresearch and strategy consulting company with an exhaustive knowledge base of cutting-edge and potentially market-disrupting technologies that are predicted to become more prevalent in the coming decade.
