Some Key Highlights from the Report

In July 2020, OrVance signed a partnership agreement with GC Orthodontics America for funding the substitution of conventional dental wax used in orthodontic procedures with OrthoDots® CLEAR, an innovative dental care standard.

Orthodontic instruments are likely to grow at a faster rate in the forecast period attributed to a rise in the replacement rate of the handheld instruments, growing awareness associated with instruments' hygiene, and growing demand for orthodontics.

Adults comprise about a quarter of the orthodontic patients as crooked teeth may cause other dental issues, including tooth decay, chewing difficulty, and gum disease.

The market in the Asia Pacific region is projected to grow at the fastest rate in the forecast period attributed to a growing demand for braces & ligatures, particularly in children, the presence of a large patient pool, and dental disease severity.
