The dried peas market consists of sales of dried peas by entities (organizations, sole traders, and partnerships) that are engaged in the production of dried peas. Dried peas, also known as field peas, when dried are used in food preparation such as pasta, cereals, and soups. Dried peas are considered a very good source of potassium, cholesterol-lowering fiber, and two B-Vitamins, protein, and contain almost no fat. They help lower cholesterol, maintain blood sugar levels, and lower high blood pressure.

Dried peas companies are increasingly offering pea protein based powder which can be incorporated in ready-to-drink beverages, baked goods, and dairy foods. Pea protein has a higher concentration of protein and well-balanced profile of amino acids and can be used as a substitute for egg protein in products such as mayonnaise and as an alternative to soy and wheat gluten.
