*Triveen Nair*

This strategy board game is a game of conquest, betrayal, and lordship over a star sign of your choice as you venture through star constellations the ancients used to guide their travel through the 12 months of the year. The aim of the game is to occupy the territory of your opponents and deny them the opportunity to own their own star signs.

The game can be played with two or more players, with each player taking turns to roll the twin dice as they move

around different star houses, identifying their star “colour” within the 12 moon mansions. There are a total of twenty-seven star houses divided among nine ruling planets.

This will be Nair’s second project, the first being his historical fiction and thriller, Land of Seekers, which follows the events of 1766, the least documented but most vital year in India’s history when 3 Kings die in quick succession under mysterious circumstances. The book takes a journey through Zanzibar, Oman, and Venice and places closer to home, like the Thar Desert and Calcutta.

The Shastranga board game will be launched in Oct 2022; pre-orders will begin September 2022

for deliveries in 2023.
