

Madame Liliane Temuni Ngoyi Mawa of DRC Honored by ICN Special Envoy Dr. Ruben West During Ceremony in Kinshasa

Known as the Mother Of Africa Madame Liliane Temuni Ngoyi Mawa was Honored by US Organization for her work of Caring For Children in Need

TOPEKA, KANSAS, UNITED STATES, July 5, 2022 /EINPresswire.com/ -- At a special event held on July 2, 2022 [iChange Nations™](#) Special Envoy Dr. Ruben West presented Madame Liliane Temuni Ngoyi Mawa with the coveted Challenged Champions and Heroes Caregiver Award for her work with children in need.

Since 2006, Madame Liliane has worked as Co-founder of the [Association Sans Frontières](#), a non-profit organization where she has been appointed Vice-President; she brings to this position her knowledge and in-depth experience in the humanitarian field. Madam Liliane is a woman who fights every day for sick children with serious pathologies, congenital malformations and precariousness which requires medical care.

What led her to humanitarian actions is the fact that she gave birth to twins on September 5, 2000 who were diagnosed with down syndrome.

She discovered this disease and the care which is linked to it. She devoted herself to the follow-up of her twins and their development. She has faced the challenges and the difficulties related to this syndrome.

In 2004 she lost one of her twins and following this tragic loss she decided to devote herself to sick children. She then decided to sponsor the surgical operations of children in the DRC. She

realized the lack of means and the precarious infrastructure for the poor.

She then decides to help the pediatrics of Kalembelmbé, the only pediatrics in the DRC, and there this adventure began. She started with one child and she ended up having 750 children suffering from all types of pathologies receiving medical operations for free from 2018 to date.

By her courage and her strength of character she knocked on all doors in order to obtain whatever was needed. Based on these actions she was nicknamed "The Beggar of the Children".

Madame Liliane has participated in numerous campaigns to help many children. She also takes care of 160 children with down syndromes all year round for medical care, such as ophthalmology, orthodontics, dentistry in order to improve their quality of life. She leads a number of campaigns to educate the parents of those down syndrome children about their potential and their learning abilities.

“

Every life is valuable and is created to bring a contribution to the world. We salute those who help others bring out their contributions.”
