

Spinal Fusion Devices Market Top Player, Product Scope, Future Trends, Regional Outlook and Worldwide Demand in 2027

Market Size – USD 6.88 billion in 2019, Market Growth - CAGR of 3.5%, Market Trends – Increasing diagnosis of degenerative disc disease

VANCOUVER, BC, CANADA, July 5, 2022 /EINPresswire.com/ -- The global [Spinal Fusion Devices Market](#) will be worth USD 8.90 Billion by 2027, according to a current analysis by Emergen Research. The growth of this market can be attributed to the increasing condition of spine degeneration among the aging population as people over the age of

65 are more likely to experience symptomatic spinal conditions as a result of natural degeneration. The emergence of better healthcare technology in the emerging economies due to the increasing healthcare budgetary allocation is expected to drive the growth of the spinal fusion devices market over the forecast period.

Global spinal fusion devices market Research Report and Forecast to 2027 is an investigative report providing an extensive study of the global spinal fusion devices market with regards to market size, market share, current and emerging trends, and latest technological developments. The report also sheds light on the competitive landscape of the spinal fusion devices market on the global and regional scale, along with a thorough forecast estimation to 2027.

Spinal fusion devices market Size & Share Estimation and Forecast

Spinal fusion devices market Intelligence & Market Opportunity Assessment

Competitor Benchmarking

Competitive Landscape Study

Extensive market scope covering all major offerings in the ecosystem

In-depth analysis for all the countries covered in each report

Current and upcoming trends impact analysis

Report Scope and Key Findings :

In November 2019, DePuy Synthes Companies launched the SYMPHONY Occipito-Cervico-Thoracic (OCT) System. The newly launched system by the company is expected to help in the surgical treatment of conditions in the neck and upper back. The system includes a set of implants and instruments which can be used for the stabilization of the spine in patients undergoing Posterior Cervical Fusion Surgery.

The thoracolumbar devices segment held the largest market share of 45.3% in 2019. The rising aging population and their increasing demand for spinal care are expected to drive the growth of thoracolumbar devices.

Minimally Invasive Spine Surgery is forecasted to grow with the fastest CAGR of 4.0% over the forecast period. The risks associated with open surgeries are contributing to the growing adoption of the Minimally Invasive Spine Surgery by Healthcare professionals.

The Hospitals & Ambulatory segment held the largest market share of the Spinal Fusion Devices in 2019. The presence of favorable health insurance coverage for most of the spinal treatments and the availability of skilled spine surgeons in the hospitals is expected to drive the demand of the segment.

Emergen Research has segmented the global Spinal Fusion Devices Market on the basis of Product, Surgery, End User, and region:

Product Outlook (Revenue, USD Billion; 2017-2027)

Cervical Fixation Devices

Thoracolumbar Devices

Interbody Fusion Devices

Biologics

Surgery Outlook (Revenue, USD Billion; 2017-2027)

Minimally Invasive Spine Surgery

Open Spine Surgery

End User Outlook (Revenue, USD Billion; 2017-2027)

Specialty Clinics

Hospitals & Ambulatory Surgery Centers

Others
