“

Teledentistry Market Size – USD 1,019.16 Million in 2021, Market Growth – at a CAGR of 16.9%, Market Trends – Increased adoption of teledentistry services among people residing in remote areas

”

Emergen Research

Teledentistry has proven to be effective for distant dental screening, diagnosis, consultation, and treatment planning over the years. It has been proven to be equivalent to real-time consultations in places with restricted access to facilities, and in long-term care institutions. Teledentistry has increased access to dental care by enabling patients and clinicians to get care via telecommunications and technology. Teledentistry also assists in attending to patient needs through modern forms of communication such as live consultations, real-time videoconferencing, and store & forward consultations. As telehealth services become more widely used, they will be able to reach millions of patients in the coming years, and

telecommunication via mobile health or mhealth applications is particularly beneficial to the elderly population.

The future of the teledentistry industry is being driven by rising demand for teleconsulting services and a surge in technological innovations, most notably mobile-enabled applications, AI, and machine learning. Artificial Intelligence (AI)-powered dental health software platforms have made teledentistry more affordable, accessible, cost-effective, and user-friendly, and advancements in sensor and camera technologies have opened up new prospects and discoveries in this sector. For instance, DentalXrai Pro is a software tool developed by Charité—Universitätsmedizin Berlin dentists in collaboration with data scientists and programmers. It allows dental practitioners to do AI-based radiograph analysis. The new program was created to assist dentists in more correctly identifying diseases and restorations in less time, allowing them to deliver better treatment and increase patient communication. In addition, on 2 September 2021, Unident, which is the largest digital dental care distributor in the Nordic region, partnered with Pearl, which is a pioneer in AI solutions for efficiency and consistency in dental care, for marketing Pearl's AI dental radiology solutions Second Opinion and Practice Intelligence, which are incorporated into the workflow of Unident's popular Onepix imaging software, as standalone alternatives.

The major manufacturers covered in this report:

MouthWatch, LLC., SmileDirectClub, Dentulu, Inc., Live Dentist, Teledentix, TheTeleDentists, Koninklijke Philips N.V., Denteractive Solutions, Inc., Toothpic, and Candid Care Co.

Scope of the report:

The study aims to evaluate different segments, their individual development trends, and their contribution towards the growth of the overall industry. Furthermore, the research offers extensive data about the key factors such as the drivers, challenges, restraints and opportunities and their impact on the growth rate. Most importantly, the market intelligence report delivers competitive intelligence data from market evaluation and help companies plan their growth strategies from the consumption volume as well as forecast statistics.

Emergen Research has segmented the global Teledentistry market on the basis of product type, service type, end-use and region:

Product Type Outlook (Revenue, USD Million; 2019–2030)

Hardware

Software & Services

Delivery Type Outlook (Revenue, USD Million; 2019–2030)

Cloud-based

Web-based

End-use Outlook (Revenue, USD Million; 2019–2030)

Healthcare Providers

Hospitals & Clinics

Our reports will help you solve the following issues: –

Insecurity about the future:

Our research and insights help our clients to anticipate upcoming revenue compartments and growth ranges. This help our client to invest or divest their assets.

Understanding market opinions:

It is extremely vital to have an impartial understanding of market opinions for a strategy. Our insights help to have a keen view on a market sentiment. We keep this reconnaissance by

engaging with Key Opinion Leaders of a value chain of each industry we track.

Understanding the most reliable investment centers:

Our research ranks investments centers of market by considering their future demands, returns and profit margins. Our clients can focus on most prominent investment centers by procuring our market research.

Evaluating potential business partners:

Our research and insights help our clients in identifying compatible business partners.

Custom Requirements can be requested for this Report [Customization Available]@

The professional intelligence study on the Teledentistry market addresses some of the most critical questions:

What market size will 2031 be, and what growth rate will it experience?

What are the key trends in the Market?

What are the driving forces behind the Teledentistry market?

What are the obstacles to market growth?

Which are the top vendors in this space?

What are the threats and opportunities in the market for key vendors?

What are the strengths or weaknesses of critical vendors?

What are the future opportunities for the players in the Teledentistry market?

What are the main issues facing the global Teledentistry market?

How does the competitive landscape look?

We are grateful to you for reading our report. If you wish to find more details of the report or want a customization, contact us. You can get a detailed information of the entire research here. If you have any special requirements, please let us know and we will offer you the report as you want.

Benefits of Purchasing Keyword Market Reports:

Customer Satisfaction: Our team of experts assists you with all your research needs and optimizes your reports.

Analyst Support: Before or after purchasing the report, ask a professional analyst to address your questions.

Assured Quality: Focuses on accuracy and quality of reports.

Incomparable Skills: Analysts provide in-depth insights into reports.
