

Network with Johnson & Johnson, BSI, AstraZeneca & many more at the Wearable Injectors & Connected Devices Conference

SAE Media Group reports: The full agenda and speaker line-up are now available to download for the 3rd Annual Wearable Injectors & Connected Devices Conference

LONDON, NON UNITED STATES OR CANADA, UNITED KINGDOM, July 6, 2022 /EINPresswire.com/ -- SAE Media Group presents the 3rd Annual [Wearable Injectors](#) and [Connected Devices](#) Conference, taking place on the 10th and 11th of October 2022, in London, UK. The conference will consider key developments in the wearable injectors field, including the enhanced demand for on-body injectors and digitalised health as the need for at-home self-administration and routes for delivery of time-dependent, high volume, and viscous drugs grow.

Interested parties can register for the conference at <http://www.wearable-injectors.co.uk> - Interested delegates can register by 31st August to save £200

SAE Media Group has released a snapshot the speakers and themes that will be covered at the conference, see below an excerpt of the overview:

Day 1 - 10 October 2022 - Themes Covered:

Wearable Device Development and Design Part 1

Presentation on: Wearable Devices: from development to end-of-life

- Introduction to device and packaging development
- Case study on wearable device
- Case study on wearable device end-of-life, and considering sustainability, device disassembly

SAE Media Group Presents...

Wearable Injectors and Connected Devices Conference

10 - 11 October 2022
London, UK

Register at: www.wearable-injectors.co.uk
Visit: @SAEMediaGroupPharma

The poster features a dark blue background with a light blue central box containing the conference title and dates. Below the box is an illustration of a hand holding a smartphone, a wrist with a smartwatch, a computer monitor, and a doctor's head, all connected by dotted lines to a central cloud icon, representing a connected healthcare ecosystem.

and circular materials

- Discussion of FPA: developing an end-of-life product standard considerations and design principles

Led by: Cedric Gysel, Manager, Health Care Solutions and Design, Johnson & Johnson

Connected Platforms and Patient Centricity

Presentation on: Behaviour Design for digital health solutions

- Discussion about the importance of patient engagement for successful digital health interventions
- Discussion about the principle of human behaviour and particularly how it relates to adherence
- Introduction to behaviour design process and how it can be applied to digital health

Led by: Geraint Davies, Principal Human Factors Engineer, Roche

Day 2 - 11 October 2022 - Themes Covered:

Wearable Device Development and Design Part 2

Presentation on: Wearable Injectors: Latest Devices and Recent Trends

- An overview of the current wearable injector landscape
- Increasing competition from non-wearable devices
- Current good practice in wearable injector design
- International standard progress such as the new ISO-11608-6 and their implications
- Future outlook

Led by: Tom Oakley, Director of Drug Delivery, Springboard

Regulatory Outlook

Presentation on: Connected Devices and Drug Combination Products Under MDR (Article 117)

- Introduction to Article 117 and what it means
- Discussion of the impact of MDR on connected devices and drug combination products
- Insight into manufacturer responsibilities
- Exploring evidence and fulfilment of the General Safety and Performance Requirements (GSPRs)

Led by: Arabe Ahmed, Medicinal Technical Specialist, BSI
