The healthcare BPO market consists of sales of healthcare business process outsourcing services by entities (organizations, partnerships, and sole proprietors) that include the practice of healthcare organizations outsourcing non-core business activities to outside vendors.

Outsourced business activities or processes that provide administrative or other support to medical institutions, staff, and organizations are referred to as healthcare BPOs. Coding, billing services, transcription, and other similar tasks are frequently outsourced by healthcare institutions to BPO providers.

[Global Healthcare BPO Market Trends](#)

Technology advancements are shaping the healthcare BPO market. The key players in the healthcare BPO market are focusing on innovating the outsourced services and expanding their scope of application to gain their market position.
