

CloudHospital provides cutting edge SaaS to top hospitals and clinics worldwide

SEOUL, SOUTH KOREA, July 8, 2022 /EINPresswire.com/ -- [CloudHospital](#) provides a [one-stop SaaS](#) ("Software as a Service") solution to renowned S. Korean plastic surgery clinics and university hospitals to manage their web presence, client engagement and back-end management of bookings and billings. With CloudHospital, hospitals and clinics can focus on what they do best – delivering their finest healthcare and surgery procedures. The healthcare SaaS market is estimated to reach almost \$52 billion by 2028, growing at a CAGR of 19.5%, according to a recent report from Grand View Research. The benefits SaaS can bring are budgeting, including increased flexibility, higher ROI, higher competitive advantage, and lower overall software deployment costs.

The infographic features a central illustration of a doctor in a red coat sitting on a blue cloud, holding a laptop. To the right, a list of five key features is presented with corresponding icons: a doctor's face with a mask, two hands shaking, a speech bubble with a plus sign, a yellow hand icon, and a doctor in a white coat. Below the central illustration, statistics show '+ 1000 Hospitals' and '+ 31 Countries'. A paragraph describes the platform's reach and purpose.

Feature	Description
	Customized Profile for the doctor and the clinic on our webpage
	Organic Marketing locally and internationally
	Easy Direct Contact with patients through a chat system
	Easy Booking system for consultations
	Online Consultations through video call system

Hospitals **+ 1000** Countries **+ 31**
