TOKYO, JAPAN, July 10, 2022

/EINPresswire.com/ -- Popular music group, [3x4xS](#) is pleased to announce the release of its latest album featuring renowned vocalists Levi Elipha (NIJISANJI), Jordan Sweeto, Hiiragi Yuu, and AQUA+.

3x4xS (SA SHI SU) is an ensemble unlike any other - producing an innovative, raw, and dramatic new sound using traditional Japanese string instruments. 3x4xS, which stands for 3 shamisen strings, 4 cello strings, and string instruments, uses music as a playground to produce fun and exciting music - unlike any other before. The group is known for its new performance of Clash on the Big Bridge, which is a cover of the original Final Fantasy V soundtrack.

In the group's latest news, 3x4xS is excited to announce the release of its hot new album, [3x4xS Vocalized Collection 1](#), this summer. This album is completely different to the group's traditional instrumental tracks and, instead, features four amazing vocalists, Levi Elipha (NIJISANJI), Jordan Sweeto, Hiiragi Yuu, and AQUA+, in different types of

pieces. All tracks are composed/arranged/lyrics by Nubia, the group's exceptionally talented cellist.

"This time, we tried to make three different types of pieces in different themes/genres/vocalists," Nubia says. "I would be happy if this can be an opportunity for everyone to know the charm of the mixture of Japanese shamisen with Western cello in an innovative style."

3x4xS Vocalized Collection features three unique tracks that take listeners on a thrilling musical adventure:

The 1st track, 最強最低 (Saishoritsu Against), is 3x4xS's first hard-rock piece.

The song is for those who decide to be against the Law of the Minimum (最低), with lyrics saying, "be strong, resolute. Do not make a compromise with others, you take the lead." The piece features vocalist, Levi Elipha, who is an active VTuber, belonging to NIJI SANJI that has powerful and passionate voices. Members of the band are also selected virtuosos known in Japan, including Shimpei Wada (Gt), Fami (Ba), Dainashi (Dr), and Kazuaki Obata (Pf).

The album's 2nd track, Weak Self, is sung by Jordan Sweeto, and is about the weakness in ourselves, accepting our weakness to find a way to find my strength in every day. It's not only calm and slow, but also a motivative EDM track. The guitarist for the piece is Keitaro Kurosawa (Gecko&TokageParade, KAWASAKI MELTDOWN).

The 3rd and final track is Summertime Memory, a summer EDM track. Its theme is "Broken Heart," showcasing a man/woman's loss of one's love and can't forget his/her memory now.

Another theme, “unchangeable myself,” is hidden here, too.

This piece is sung by twin vocals, Hiiragi Yuu and AQUA+, who also shot the music video around the seaside of Kanagawa, known for one of the famous sightseeing spots in Japan.
