

# Sound Level Measurement Meter Market Forecast To Grow At A CAGR Of 5.1% During 2022-2032, Future Market Insights Inc.

*Sound Level Measurement Meter Market is projected to reach a valuation of US\$ 682 Mn in 2022, likely to surge at a vigorous 5.1% CAGR during 2022 - 2032*

NEWARK, DELAWARE, UNITED STATES OF AMERICA, July 11, 2022 /EINPresswire.com/ -- Global market for [sound level measuring metres](#) is expected to be valued at US\$ 682 million in 2022, rising at a CAGR of 5.1 percent to US\$ 1,120 million between 2022 and 2032. The increased need for restoration projects and development in residential and commercial building is driving growth.

Sound Level Measurement Meter

These problems are leading to the growing concerns regarding the world population, which is creating the need for the development of certain useful measures for controlling the level of noise. This has led to the usage of sound level measurement meters to address the increasing concerns regarding noise pollution.

Owing to the growing number of automobile users, increase in the number of jet planes and rise in the usage of woofers & speakers with high power, there has been a significant increase in problems such as stress, hearing and cardiovascular diseases.

A sound level measurement meter is used for the measurement of acoustics (sound that travels through air). It is a very small device with a microphone. The diaphragm of the microphone reacts to changes in the air pressure that are produced by sound waves.

Noise at workplaces can cause deafness, which can either be short-term or permanent. While

people may recover from short-time deafness after leaving the noisy place, those who continue to be exposed to loud noise are likely to suffer from permanent damage.

Therefore, noise control regulations at workplaces came into force in 2006 to protect workers from the effects of noise. Consequently, new sound level meters should meet the regular standard ANSI S1.4 to either IEC 61672 to

The overall sound level measurement meter market is extremely fragmented with the presence of a large number of companies. At present, key players of the sound level measurement meter market are focusing on providing products at competitive costs to customers and implementing strategies such as acquisitions and agreements.

### Sound Level Measurement Meter Market: Dynamics

Increase in the number of investments by governments to maintain eco-friendliness is boosting the demand for sound level measurement meters. In addition, increase in the number of noise pollution studies for the quantification of different types of noise, especially from the industries, aircrafts and mining, is likely to boost the demand for sound level measurement meters.

Moreover, increasing standards related to noise pollution are expected to spur the demand for sound level measurement meters.

### Sound Level Measurement Meter Market: Market Participants

Examples of some of the market participants/vendors identified in the global sound level measurement meter market are:

- BM Company
- Norsonic AS
- Svantek, Inc.
- Testo SE & Co. Kga
- IRRUS Research Plc.
- Tes Electrical Electronic Corp.
- Irti Audio
- Casella, Inc.
- Bruel & KJR
- Bion Co., Ltd.

The research report presents a comprehensive assessment of the market and contains thoughtful insights, facts, historical data, and statistically supported and industry-validated market data.

It also contains projections using a suitable set of assumptions and methodologies. The research report provides analysis and information according to market segments such as geographies, application, and industry.

## Key Segments Profiled in the Sound Level Measurement Meter Market

### Sound Level Measurement Meter Market by Type:

- Ordinary Sound Level Measurement Meters
- Precision Sound Level Measurement Meters

### Sound Level Measurement Meter Market by Application:

- Sound Level Measurement Meters for Factories and Enterprises
- Sound Level Measurement Meters for Environment Protection
- Sound Level Measurement Meters for Transportation
- Sound Level Measurement Meters for R&D
- Sound Level Measurement Meters for Other Applications

### Sound Level Measurement Meter Market by Region:

- North America Sound Level Measurement Meter Market
- Latin America Sound Level Measurement Meter Market
- Europe Sound Level Measurement Meter Market
- Asia-Pacific Sound Level Measurement Meter Market
- Middle East and Africa Sound Level Measurement Meter Market
