

STM Canna to Showcase LaunchPad Pre-Roll Scale and Atomic Closer at CannaCon Detroit

STM Canna will showcase the latest in cannabis automation technology, specifically STM Canna's complete pre-roll turnkey workflow system.

SPOKANE, WA, UNITED STATES, July 14, 2022 /EINPresswire.com/ -- STM Canna, a pioneer and manufacturer of industry-leading cannabis post harvesting technologies, will exhibit at the CannaCon Detroit Expo on July 22nd and July 23rd to highlight the latest in cannabis automation technology.

Attendees will get a first-hand look at STM Canna's complete pre-roll turnkey workflow and the opportunity to consult with our knowledgeable staff.

“

The STM Canna LaunchPad is the only scale available which can simultaneously weigh 72 pre-rolls in a matter of seconds”

Erik Blackerby

The feature of this expo is the brand new LaunchPad scale and Atomic Closer. Both of these systems compliment the complete STM turnkey workflow system. The LaunchPad lowers operational overhead by dramatically increasing production speed and output, and reducing waste.

"The LaunchPad is the only scale available which can simultaneously weigh 72 pre-rolls in a matter of seconds," Erik Blackerby, STM Canna's Chief Operating Officer said.

"It allows operators to define specific target weight parameters and tolerance percentages quickly and easily, with results immediately visible on a 20" heads-up display."

The Atomic Closer is the only ultra compact pre-roll closing machine designed to incorporate the human touch for a true premium quality look and feel. The It can close 72 pre-rolls in 45 seconds with a professional crown folded finish, and functions as the important final step in STM's pre-
