

Ceramic Matrix Composites Market 2022 Key Competitors, Major Products, Services, Share Analysis, Upcoming Trends 2027

Leading market players in market include Rolls-Royce Plc, SGL Group, Coi Ceramics Inc., Ceramtec, United Technologies, Coorstek Inc., Lancer Systems & Ultramet.

PORTLAND, OREGON, UNITED STATES,

July 12, 2022 /EINPresswire.com/ --

Based on region, North America contributed to the highest share in terms of revenue, holding almost two-fifths of the global market share in 2018, and is expected to maintain its lead position during the forecast period. However, Asia-Pacific is expected to grow at the largest CAGR of 12.1% from 2019 to 2026.

Download Report Sample: <https://www.alliedmarketresearch.com/request-sample/2436>

Based on composite type, the SiC/SiC segment contributed to nearly two-fifths of the total share of the global market in 2018, and is expected to maintain its dominant share in terms of revenue during the forecast period. Moreover, this segment is expected to witness the highest CAGR of 11.9% from 2019 to 2026. The research also analyzes the segments including C/C, Ox/Ox, others.

Based on fiber type, the continuous fiber held the highest market share with more than two-thirds of the total market share in 2018, and is estimated to continue its lead position throughout the forecast period. Moreover, this segment is estimated to witness the highest CAGR of 11.6% from 2019 to 2026. The report also analyzes the short fiber segment.

Based on fiber material, the SiC Fibers segment contributed to more than two-fifths of the total share of the global market in 2018, and is estimated to maintain its highest share in terms of revenue during the forecast period. However, the amorphous ceramic fibers segment is projected to portray the largest CAGR of 11.8% from 2019 to 2026.

According to the report published by Allied Market Research, the global [ceramic matrix composites market](#) generated \$4.85 billion in 2018, and is estimated to reach \$11.51 billion by 2026, witnessing a CAGR of 11.4% from 2019 to 2026. The report provides an extensive analysis of market size & estimations, drivers & opportunities, key investment pockets, major segments, and competitive landscape.

Excellent mechanical characteristics at high temperature along with widespread application scope of the automotive industry drive the global ceramic matrix composites market. However, expensive nature of ceramic matrix composites hinders the market growth. On the other hand, rise in R&D activities and huge production of ceramic fibers creates new opportunities in the next few years.

Leading market players analyzed in the research include Rolls-Royce Plc, SGL Group, Coi Ceramics Inc., Ceramtec, United Technologies, Coorstek Inc., Lancer Systems, Ultramet, Applied Thin Films, and Composites Horizons.

About Us:

Allied Market Research (AMR) is a full-service market research and business -consulting wing of Allied Analytics LLP based in Portland, Oregon. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of "Market Research Reports" and "Business Intelligence Solutions." AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domain.

We are in professional corporate relations with various companies and this helps us in digging out market data that helps us generate accurate research data tables and confirms utmost accuracy in our market forecasting. Each and every data presented in the reports published by us is extracted through primary interviews with top officials from leading companies of domain concerned. Our secondary data procurement methodology includes deep online and offline research and discussion with knowledgeable professionals and analysts in the industry.
