Stephen's novel is so in sync with today's war on terrorism that the author includes a disclaimer that 'most of the details are sheer fabrication,'" praises Authors Reading. The Handler provides a multi-national setting, with CIA agents attempting to foil a terrorist plot aimed at causing death and destruction at several locations around the United States. This gripping adventure takes two CIA operatives from New York to Afghanistan, Paris, Las Vegas, and, ultimately, America's heartland as they race to prevent a series of terrorist attacks. When the CIA uncovers details of violent assaults planned throughout the United States,

clandestine CIA operative Nicholas Reagan and his partner, Carol Gellos, are assigned to prevent them—traveling across the world as they confront long odds and danger along the way.

Another reviewer states, “The Handler is a heart-pounding ride with great narratives and interesting people and places. It's got it all - spies, assassins, guns, and terrorist cells. An excellent blend of drama and suspense with plenty of twists and turns to keep the reader enthralled. If you liked Vince Flynn novels, you would love Stephens's super cool CIA operative Nick Reagan.”

The Handler will be available in bookstores as well as on Amazon and Barnes & Noble and is already available for pre-order.
