Some Key Highlights from the Report

- In February 2021, Carrum Health expanded options for weight loss surgery in mid-west through partnership with the Bariatric Centre of Kansas City (BCKC). The centre has performed over 17,000 surgeries and the partnership will help improve quality of lives with improved access to high-quality bariatric surgery.
- Assisting devices segment is expected to register steady increase in revenue growth during the forecast period as these devices are widely used in minimally invasive surgeries which require immediate closure of small incisions.
- Gastric bypass surgery helps loose weight by changing how stomach and small intestine handles food. After surgery, the stomach will be smaller, and patient will feel full with less food consumption. This procedure is performed on patients who are seriously obese and have been unable to achieve desired weight loss through diets.
