The [carrier screening market size](#) was valued at \$1,378.06 million in 2020, and is projected to reach \$4,002.05 million by 2030, registering a CAGR of 11.5% from 2021 to 2030.

The growth of the global carrier screening market is expected to be driven primarily by increased emphasis on early disease detection and prevention, surge in demand for personalized medicine, and rise in applications of screening tests in genetic disorders. Genetic diseases, including cystic fibrosis, sickle cell anemia, and Tay–Sachs disease, are inherited disorders. For such diseases, carrier testing can provide information about a couple’s risk of having a child with a genetic condition. Many genetic disorders can be detected early during pregnancy by prenatal screening or carrier screening. Hence, increase in demand for safe and effective carrier tests is fueling the growth of this market.

The COVID-19 pandemic is an unprecedented global public health challenge, and is anticipated

to have a negative impact on the carrier screening market. Pregnant or recently pregnant women with COVID-19 are more likely to be admitted to the intensive care unit or need respiratory support when compared with non-pregnant women of reproductive age. Pregnant women with COVID-19 were also more likely to give birth prematurely.

Which market perspectives are enlightened in the Carrier Screening market report?

Executive Summary: It covers a summary of the most vital studies, the Worldwide Carrier Screening market increasing rate, modest circumstances, market trends, drivers and problems as well as macroscopic pointers.

Study Analysis: This covers major players, vital market segments, the scope of the products offered in the Carrier Screening market, the years measured and the study points.

Competitive Analysis: In this segment each player is screened based on a products, services, value, SWOT analysis, growth and other significant features.

Geographic Analysis: This Carrier Screening market report analyses data on the basis of production, sales, imports & exports, and key players in all regional markets.

Carrier Screening Market Segments and Sub-segments::

Carrier Screening Market by Key Players: Eurofins Scientific, Invitae Corporation, Opko Health, Fulgent Genetics Inc., Quest Diagnostics Incorporated, Natera Inc. Myriad Genetics, Illumina Inc., Thermo Fisher Scientific Inc., and Luminex Corporation.

Carrier Screening Market By Type: Expanded Carrier Screening and Targeted Disease Carrier Screening

Carrier Screening Market By Technology: DNA Sequencing, Polymerase Chain Reaction, Microarrays, and Others

Carrier Screening Market By End User: Hospitals & Clinics, Reference Laboratories, Physician Offices, and Others
