The Advocate says, "A Navy Machinist mate or a mechanic might have had extreme exposure to asbestos on a navy ship, submarine or at a shipyard where their ship-submarine was undergoing repairs, retrofit or an upgrade. A sailor with a skilled trade-like a machinist or mechanic would have probably had constant exposure to asbestos in

the navy-especially if they served in the 1960s, 1970s or early 1980s.

"If your husband or dad is a Navy Veteran and he was a Machinist Mate or mechanic on a ship, or submarine and he has recently been diagnosed with mesothelioma-please call the remarkable legal team at the law firm of Danziger De Llano anytime at 800-864-4000 to discuss compensation. We think you will be very glad you did." <https://meso.dandell.com>
