

Flynn DOJ Report and Submission Available For Download

Long awaited report released

WEST CHESTER, PA, USA, July 18, 2022

/EINPresswire.com/ -- Everett Stern has released the long-awaited Flynn Report. The 231-page document is available as a free download on his Substack channel <https://everettstern.substack.com>. The report which has been submitted to the DOJ (Department of Justice) details attempts by the Patriot Caucus headed by Michael Flynn to blackmail and exhort Republican politicians to overturn the results of the 2020 Presidential Election and their ongoing efforts to lay the groundwork that could shape the outcome of future elections. The report contains photos, legal filings, text messages and other correspondence related to an attempt to have Stern's private intelligence company Tactical Rabbit find compromising information on current members of the US Congress and Senate and use it to pressure them. Stern has previously testified before the January 6th Committee.

“

I decided to make the report free and available because I wanted the American people to see for themselves the real threats posed to our country,”

The Patriot Caucus is a nationwide network of rightwing groups, such as the Oath Keepers, with thousands of branches numbering millions of followers across the United States. They are being organized and mobilized by General Flynn.

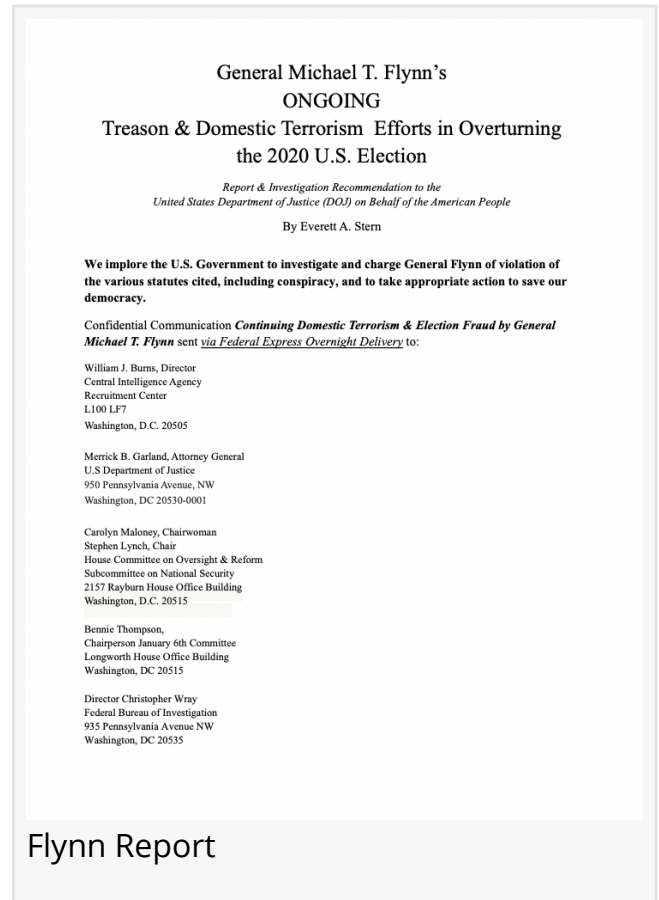

The document details the role played by non-profits controlled by Flynn to channel funds to political campaigns of candidates supportive of their agenda seeking public office. Part of that agenda is to have these candidates if

elected change State election laws. "What they are seeking to do is undermine US democracy and replace it with an autocracy, it amounts to treason," said Stern.

Everett Stern first came to public attention as a whistleblower in the HSBC banking scandal which resulted in the largest fine in American banking history of \$1.92 billion. "I decided to make the report free and available because I wanted the American people to see for themselves the real threats posed to our country," said Stern
