

Global Solar Power Equipment Market to Register a Significant CAGR by 2031 | JA Solar, JinkoSolar, LONGi Solar

rise in demand for efficient solar power equipment from various residential and nonresidential users. Depending on application

PORTLAND, OR, US, July 18, 2022 /EINPresswire.com/ -- Allied Market Research recently published a report, titled, "[Solar Power Equipment Market, 2021-2031](#)". The report includes a comprehensive study of the global market & forecast, region-wise outlook, segmental analysis, dynamic factors, competitive landscape, and major market trends.

Solar Power Equipment Market 2022

Global solar power equipment market size was valued at \$101.9 billion in 2020, and is projected to reach \$310.4 billion by 2030, registering a CAGR of 11.3% from 2021 to 2030, global Solar Power Equipment market report covers an in-depth study of the industry on the basis of various key parameters including sales, market size, sales analysis, and prime driving factors. The report offers Porter's five forces model, coupled with financial analysis, portfolio analysis, and business overview of services and products. In addition, the report offers a SWOT analysis that includes brief information regarding driving and restraining factors of the market growth. Such statistical tools are vital for understanding potential opportunities in the market and leveraging market dynamics for benefits. In addition, a report is an essential tool for major market players, as well as new industry entrants, to formulate their strategies and take advantage of the opportunities in the industry.

The market report offers detailed segmentation of the market based on type, application, end user, and region. A comprehensive analysis of each segment helps in making profitable investments and helps market players in gaining competitive intelligence. The in-depth analysis of every segment and sub-segment is analyzed in the report along with the aid of graphical and tabular formats. Thus, the study is an essential piece of information in understanding the fast growing segments and the highest revenue-generating of the market for making strategic investments.

Market Segments

•BY EQUIPMENT

- oSolar Panels

- oMounting, Racking, & Tracking System

- oStorage System

- oOthers

•BY APPLICATION

- oResidential

- oNonresidential

- oUtility

The market is studied on the basis of geographical penetration coupled with an analysis of market influence in various regions such as North America (United States, Canada, and Mexico), Europe (Germany, France, UK, Russia, and Italy), Asia-Pacific (China, Japan, Korea, India, and Southeast Asia), South America (Brazil, Argentina, Colombia), Middle East and Africa (Saudi Arabia, UAE, Egypt, Nigeria, and South Africa).

Looking for Customization? : <https://www.alliedmarketresearch.com/request-for-customization/4271>

The global Solar Power Equipment market report offers a thorough study of key market players with inclusive information on their company description, key developments, market share, and financial breakdown. The detailed analysis of these companies provides a business overview coupled with a portfolio analysis of their services and products. The market players mentioned in the report have adopted various business strategies including joint ventures, mergers & acquisitions, new product launches, and collaborations to maintain their market position.

Competition Analysis

ABB Group

Canadian Solar

First Solar Inc.

Hanwha Q CELLS

JA Solar

JinkoSolar

LONGi Solar,

Shunfeng International

SunPower Corporation

Trina Solar.
