“

Increase in interest among people in bicycle events and surge in participation in sports & leisure activities are expected to boost growth of the bicycle sportswear market.”

*Shankar Bhandalkar*

Bicycle sports is an ongoing trend in the market. Countries such as the U.S., Paris, and China are some of the leaders in bicycle sports. With surge in demand for bicycles, manufacturers are developing and elevating sports bikes that are light in weight, wheels with strong grip, strong breaks, and aerodynamic design, thus enhancing the cycling experience. In addition, sports bicycles are used in mountain riding and off-road riding as well. This not only promotes bike sports but also provides users with a thrill and adventurous experience. These bicycle trends leads to the rise in bicycle market demand.

According to the bicycle market analysis, on the basis of type, the non-cargo electric bicycle market segment was the highest contributor to the market, with \$12,712.4 million in 2019, and is

estimated to reach \$17,580.4 million by 2027, at a CAGR of 4.1% during the bicycle market forecast period. This is attributed to technological advancements in bicycles such as integration of durable batteries and designing bicycles with light fiber body materials.

Bicycle sports provide career options as a coach, analyst, or as head of the bicycle association to bikers and athletes. Bicycle associations play a vital role in the growth of the global market. These associations share a common goal to promote and increase cycling worldwide. The World Association of Cycling Events (WACE) is one of the biggest bicycle association, which organizes various prestigious and largest bicycle events at a global level. These bicycle events include Cape Town Cycle Tour, TD Five Boro Bike Tour, Vatternnunrad, RideLondon, and Grant Fondo Campagnolo Roma. Thus, increase in bicycling events add to the popularity of these vehicles, which significantly contributes toward the growth of the global market.

By sales channel, the physical stores segment dominated the market in 2019, accounting for \$17,628.1 million, and is estimated to reach \$20,164.4 million by 2027, at a CAGR of 1.7%. This is attributed to the fact that customers can easily procure required products from physical stores. In addition, customers are given personal attention by the sales staff at these stores. Furthermore, the queries and issues are resolved immediately in physical stores.

Depending on end user, the men segment exhibited the highest growth in 2019, generating revenue of \$8,990.5 million, and is estimated to reach \$12,301.8 million by 2027, registering a CAGR of 4.0%. This is attributed to increase in interest of sports and leisure activities among men. Furthermore, in bicycle events, men athletes have witnessed higher fan following in comparison to women and kids.

Key players in the bicycle industry have relied on strategies such as product launch and business expansion to expand their presence in the global market and to stay relevant. The key players in the bicycle market profiled in the report are Accell Group, Cervélo, Dorel Industries Inc., Giant Bicycles, Merida Industries Co., Ltd., Olympus Bikes, Scott Sports SA, Specialized Bicycle Components, Inc., Trek Bicycle Corporation, and Kona Bicycle Company.
