

Flow Chemistry Market Size, Share, Demand, Growth And Forecast 2021-26

According to the latest report by IMARC Group, The global flow chemistry market exhibited strong growth during 2015-2020

SHERIDAN, WYOMING, UNITED STATES, July 18, 2022 /EINPresswire.com/ -- According to the latest report by IMARC Group "Flow Chemistry Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026", The [global flow chemistry market](#) exhibited strong growth during 2015-2020. Looking forward, IMARC Group expects the market to grow at a CAGR of around 10% during 2021-2026.

Flow chemistry is widely used for oxidation, hydrogenation, halogenation, and diazotization reactions. It assists in performing chemical reactions between reactive compounds in a single flowing stream. It also aids in increasing product quality and yield, analyzing, optimizing, scaling up chemical reactions, and providing a customizable workflow. Moreover, as it is safer, faster, and scalable, flow chemistry is replacing the conventionally used batch reactors worldwide.

Note: We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Market Trends:

Presently, there is a considerable expansion in the chemical industry across the globe. This, along with the increasing adoption of microreactors in the pharmaceutical industry, represents one of the key factors positively influencing the market. Besides this, leading players are introducing advancements, such as highly automated flow synthesise systems integrated with next-generation sustainable manufacturing solutions. These technologies assist in preventing blockages in the process and maintaining a continuous flow. Furthermore, the market is also driven by increasing research and development (R&D) activities.

Breakup by Reactor:

Continuous Stirred Tank Reactor
Plug Flow Reactor
Microreactor
Microwave System
Others

Breakup by Application:

Pharmaceuticals
Chemicals
Academia and Research
Petrochemicals
Others

Market Breakup by Region:

North America (United States, Canada)
Asia Pacific (China, Japan, India, South Korea, Australia, Indonesia, Others)
Europe (Germany, France, United Kingdom, Italy, Spain, Russia, Others)
Latin America (Brazil, Mexico, Others)
Middle East and Africa

Competitive Landscape with Key Player:

AM Technology
Chemtrix BV
Corning Incorporated
Ehrfeld Mikrotechnik GmbH
FutureChemistry Holding B.V.
HEL Ltd.
Lonza Group AG
Milestone Srl (Koch Media GmbH)
Parr Instruments Company
Syrris Ltd (Asahi Glassplant Inc.)
ThalesNano Inc.

About Us

IMARC Group is a leading market research company that offers management strategy and market research worldwide. We partner with clients in all sectors and regions to identify their highest-value opportunities, address their most critical challenges, and transform their businesses.

IMARC's information products include major market, scientific, economic and technological developments for business leaders in pharmaceutical, industrial, and high technology organizations. Market forecasts and industry analysis for biotechnology, advanced materials, pharmaceuticals, food and beverage, travel and tourism, nanotechnology and novel processing methods are at the top of the company's expertise.
