Surge in product availability and rise in electrosurgical procedures have fueled the growth of the global smoke evacuation system market. However, dearth of skilled professionals and technical concerns hamper the market growth. On the other hand, surge in patient preference for minimally invasive surgeries would open new opportunities in the coming years.

Rise in the product availability and surge in electrosurgical procedures drive the growth of the global smoke evacuation system market. However, technical concerns and scarcity of skilled professionals hinder the market growth. On the contrary, increase in patient preferences for minimally-invasive surgeries is expected to open lucrative opportunities for the market players in the future.

The global smoke evacuation system market is driven by growth in investments toward R&D activities by the key players in the emerging economies, shift in preference toward minimally invasive surgeries, and surge in the number of laparoscopic surgeries performed globally. In

addition, the increasing demand for medical aesthetic procedures due to growing awareness toward physical appearance is also expected to supplement the market growth.

Covid-19 scenario:

The Covid-19 pandemic resulted in a nationwide lockdown and created a huge gap between supply and demand for smoke evacuation systems.

Moreover, several elective procedures including aesthetic treatments were postponed owing to strict regulations imposed on clinics and hospitals to prevent the spread of infection.

On the other hand, studies observed that the Covid-19 virus remains in the aerosol for up to three hours, which has boosted the demand for smoke evacuation systems to minimize transmission.

The global smoke evacuation system market is segmented on the basis of product, end user, application, and region. Based on product, the smoke evacuation filters segment is projected to manifest the highest CAGR of 11.4% during the forecast period. Moreover, the segment dominated the market in 2019, contributing to nearly one-third of the market.
