

DriverZ is Expanding its List of Top Driving Schools to Wisconsin

Teen drivers and their families have a convenient new way to find the best in local driver education

LOS ANGELES, CA, UNITED STATES, July 20, 2022 /EINPresswire.com/ -- DriverZ, by IMPROV[™] Learning, is excited to announce that their Top Driving School page is live for several cities

throughout Wisconsin. They've been hard at work identifying the top driving schools in cities across the nation so everyone can find the best in driver education. Their goal is to address the needs of new teen drivers and their families by making it easy to find the best behind-the-wheel training — a vital step in getting a driver's license and becoming a safer driver.

The schools selected for DriverZ's coveted best driving school list provide the best training for new teen drivers, their parents, and anyone looking to learn, improve their skills, and become safer drivers. Now, residents in Wisconsin have access to this service to find:

- Best Driving Schools in Madison
- Best Driving Schools in Tomahawk
- Best Driving Schools in Watertown
- Best Driving Schools in Beaver Dam

DriverZ knows that parents and new drivers do not choose a driving school lightly, and neither do they. Listings include everything needed to find the school that best fits any individual's needs. A synopsis of each business is included, along with which of the five core driver education services they offer. With their years of experience, the experts at DriverZ research and verify top driving schools based on several criteria, including:

- Years in business
- Customer satisfaction
- Curriculum
- Instructor training practices

Users also get reviews, testimonials, links to individual company websites, and are shown which courses have achieved "SPIDER Approved" status – DriverZ's most exclusive rating designating driving schools that utilize SPIDER Method teaching principles.

An industry leader since 1989, DriverZ by IMPROVLearning knows what it takes to provide the best in driver education. Their courses utilize the acclaimed SPIDER Method, a straightforward training approach based on neuroscience and micro-learning developed for this generation of drivers and beyond. They believe that access to high-quality, professional driver education is the best way to make safer drivers, and they know that safer drivers make safer streets.

"We are dedicated to saving lives by creating safer drivers," said DriverZ CEO Gary Alexander, "and we're excited to be offering this service to select cities in Georgia. With traffic collisions being the number one cause of injuries and death for young people, we know that choosing a driving school is one of the most important decisions a family can make. We'll never stop finding new ways to provide the young drivers and their families with the tools they need to stay safe for life."

New drivers and their families can find various driver education resources, including cutting-edge traffic safety research, step-by-step guides to getting a license in their state, and a myriad of other content designed to help people get their licenses and become safer drivers at DriverZ.com.

Adults can also take advantage of the online courses that can improve their driving and even help them to save on their insurance or have a traffic ticket dismissed through MyIMPROV.com.
