YOUR HAITIAN TRANSLATOR ACCURATE ENGLISH TO HAITIAN CREOLE TRANSLATION BY A NATIVE

Founded by popular translator, [Swans Paul](#), YourHaitianTranslator is a new Haitian Creole translation service that allows US-based individuals and companies to translate English into Haitian Creole audio. The service comes as a result of Google Translate's removal of Haitian audio, leaving businesses and individuals to seek out their own translation services. Now, through YourHaitianTranslator, visitors to the site can hire Swans directly and deal with a real [Haitian Creole translator](#), as opposed to a simple AI-based translation service that is likely to produce hard-to-understand or inaccurate translations.

"Some time ago, Google Translate stopped offering the audio version of Haitian Creole words and sentences," says Swans. "While this is certainly unfortunate, my new service offers superior advantages compared to the audio translations that Google Translate used to produce for Haitian Creole translations. First of all, as a native speaker and experienced translator, I can offer a more accurate translation than most machine translation platforms. Secondly, since translations are coming from a native speaker, they will naturally be clearer and won't sound robotic. And finally, visitors to my site can also learn how to pronounce Haitian Creole words and sentences to better communicate with a Haitian audience, customer, or patient."

To translate English into Haitian Creole audio, users simply visit the YourHaitianTranslator website, submit their specific English text, and Swans will translate it into a Haitian Creole, record it with his own voice, and send to you as an MP3 attachment for a small fee. Not only that but interested parties can also access the free YourHaitianTranslator YouTube channel to find more

than 100 Creole audio translations for a variety of different common phrases and scenarios.
