

Automatic Weapons Market Demands, Industry Share, Competitive Analysis and Forecasts by 2027

The increasing emphasis on the usage of the automatic weight weapons and extensive rise in investment in the defense & law enforcement bodies.

VANCOUVER, BC, CANADA, July 19, 2022 /EINPresswire.com/ -- The Global [Automatic Weapons Market](#) is forecasted to be worth USD 9.32 billion by 2027, according to a current analysis by Emergen Research. The key factors influencing the market growth include growing adoption of the Automatic Weapons in the special taskforce, rising domestic violence & terrorist attacks, increasing interest in the adoption of mobile rocket launchers, anti-aircraft & anti-submarine missiles, to name a few.

Besides, extensive rise in the cross-border conflict, broadening the number of armed law enforcement troops & new taskforce battalions, and asymmetric warfare & intercountry border conflicts are some of the additional reasons behind the remarkable growth of the market. Also, reduced manufacturing costs of the guns with the help of 3D printing mechanisms, growing demand for the smart guns, and increasing usage of the polymer in the arms industry are some of the subordinate market propelling factors that create a huge breakthrough in the market growth.

“

Automatic Weapons Market Size – USD 6.36 billion in 2019, Market Growth - CAGR of 4.8%, Market Trends – Higher demand for hitech Automatic Weapons and mobile rocket launchers”

Emergen Research

The global market landscape of Automatic Weapons is

expected to remain in a very competitive and highly fragmented landscape consisting of a number of both the small start-ups, medium enterprises, and large conglomerates. During the projected era, increasing demand for technological development and higher diversification in

offered products ensure the enormous potential for the innovative players.

Further key findings from the report suggest

In January 2020, The Adani Group, an Indian conglomerate, announced its acquisition of a Automatic Weapons business facility in Gwalior, India. With this acquisition, the company entered in the light weapons business where the company will be capable of producing machine guns, carbines, and other Automatic Weapons.

The polymer sub-segment is growing with the fastest CAGR of 6.3% owing to its higher efficiency in the manufacturing with 3D printing techniques and reduction in the overall costing with higher applicability in the sports and hunting purposes.

The regions in the Asia Pacific lead by China, India, Pakistan, and South & North Korea are allotting a considerable budget for their defense & law enforcement grooming purposes. Besides, growing incidences of interpersonal stand-offs, asymmetric warfare, terrorist activities, domestic violence, along with higher economic development and enhancement in the manufacturing industry, deliberately help propel market enforcement.
