The body lotions manufacturing market consists of the sales of body lotions. The body lotion is a smooth liquid preparation designed to be applied to the skin for medicinal, cosmetic purposes, or protective purposes. For example, sunscreens, are substances that protect from the sun's ultraviolet (UV) radiation and thus help against sunburns.

The demand for multi-benefit combinations has been increasing rapidly. Products such as foundations with anti-aging serums, sunscreen lotions, nail polish with UV protection, and anti-aging claims are introduced into the market. Multi-benefit solutions are expected to continue to penetrate further into different categories such as hair care with anti-aging or fragrance to lipsticks with lip care.
