

The Community Oncology Services Market Benefits From The Cost-Effective Cancer Care Services

*The Business Research Company's
Community Oncology Services Market
2022 - Opportunities And Strategies –
Global Forecast To 2031*

LONDON, GREATER LONDON, UK, July 19, 2022 /EINPresswire.com/ -- The lower-cost care in community oncology centers is anticipated to boost the community oncology services market growth. The cancer care services are considered to be cost-effective in community oncology centers as compared to hospitals. According to a

report published by the Community Oncology Alliance, a non-profit organization dedicated to advocating for community oncology practices, on cost differences associated with oncology care delivered in a community setting versus a hospital setting, the cost of cancer care per patient per month for various tumors in Community-based Clinics (CCs) was approximately \$12,000 whereas the cost of cancer care in Hospital-based Oncology Clinics (HCs) was about \$20,000. Furthermore, the cost per patient per month for treatment of chemotherapy in a community setting was nearly \$5,000 compared to around \$8,500 in hospital-based clinics. According to the [community oncology services market analysis](#), the low cost of community oncology settings or community oncology centers is expected to drive the demand for the market over the forecast years.
