launching of [Frida.NFT](#), a pioneering innovative blockchain technology reforming the charity industry to increase transparency, donation frequency, and donor incentive.

“

Our mission is to create a consistent donation stream to charities near & dear to our hearts while rewarding those willing to embark on this journey with us, from the museums to the Metaverse.”

Mr. Martin Mobarak, the CEO and Founder of Frida.NFT

“Like a Phoenix rising from its ashes, this collection of 10,000 NFT’s represents the rebirth & immortality of a timeless piece by Frida Kahlo, Fantasmones Siniestros. This piece will be transformed to live eternally in the digital realm Saturday night in Miami, FL,” explains Mr. Mobarak.

While it is nice to have traditional art masterpieces hanging on his private walls, Martin Mobarak has decided to take his own masterpiece valued well over \$10,000,000 to be the first perpetual royalty charity initiative.

“Our mission is to create a consistent donation stream to charities near & dear to our hearts while rewarding those willing to embark on this journey with us, from the museums to the Metaverse.”

Each Fantasmones Siniestros NFT grants the holder membership to the exclusive art-driven charity foundation along with a host of ever evolving benefits including, but not limited to, access to luxurious amenities, unique experiences, and exclusive events around the globe.

"I have been an advocate for charities that improve children's health, as I had my own personal experience in fighting rare children's diseases as a parent. The causes and charities listed in our website will be receiving perpetual royalties which also have a personal connection to me and to the people in my life."
