The bone grafts and substitutes market consists of sales of bone grafts and substitutes by entities (organizations, sole traders, and partnerships) that are used to replace and regenerate the lost bone, and can also restore proper facial contour. Bone grafts and substitutes refer to a procedure in which bone defects are filled with bone grafts or with bone graft substitutes. Bone abnormalities that necessitate bone grafting are common in trauma and orthopedic operations. Bone grafting can be described as the envelopment and interdigitation of the donor bone tissue with the new bone deposited by the recipient. It is versatile, which replaces the lost bone tissue and enhances bone growth using natural mechanisms.

## [Global Bone Grafts and Substitutes Market Trends](#)

New product innovations have emerged as the key trend gaining popularity in the bone grafts and substitutes market. Major companies operating in the bone grafts and substitutes market are focused on product innovations to meet consumer demand. For instance, in July 2021, Orthofix, a US-based company that manufactures bone graft devices, launched a new fiber bone-
