The agrochemical market consists of sales of agrochemicals by entities (organizations, sole traders, and partnerships) that are used on farmlands to improve the nutrients in the field or crops. Agrochemicals are pesticides, herbicides, or fertilizers that have been used for the management of ecosystems in agricultural sectors. Rudimentary variations of agrochemicals have been used for millennia to improve crop yields and control the populations of agricultural pests.

## Global [Agrochemicals Market Trends](#)

Strategic partnerships and collaborations have emerged as the key trends gaining popularity in the agrochemical market. Major companies operating in the agrochemicals sector are looking for partnerships to strengthen their position in the market. Furthermore, in January 2022, BASF, a Germany-based chemical company, collaborated with Innospec. This collaboration allows BASF to broaden its portfolio and offer DCI-11 Plus ClearTrak along with industry-leading Sales and Technical Support. Innospec is a US-based chemical company.

## Global Agrochemicals Market Segments

The global agrochemicals market report is segmented:

By Fertilizer Type: Nitrogen Fertilizer, Phosphatic Fertilizer, Potassic Fertilizer, Others

By Pesticide Type: Fungicides, Herbicides, Insecticides, Others

By Application: Crop Based, Non-Crop Based

By Geography: The global agrochemicals market segmentation is divided into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, North America accounts for the largest share.
