Japan Casein Market Report 2022-2027

Note: We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Casein is a protein found in animal milk that contains minerals, calcium, essential carbohydrates, amino acids, etc. It is obtained from sheep, goat, buffalo, cow, and yak milk and is commonly available in variants, including acid, caseinate, and rennet. Casein is obtained during the processing of milk and is a tasteless, amorphous, and odorless white solid. It has a slow digestion rate, which assists in controlling hunger, increasing metabolic rate, building muscle fat, supporting muscle recovery, preserving the lean muscle tissue of the body, etc. Casein is extensively utilized as a supplement to aid in recovery and reduce muscle breakdown. As a result, it finds widespread applications across various sectors, such as pharmaceuticals, cosmetics, food and beverage (F&B), industrial, etc.

The escalating requirement for this protein in snacks and baked food products for improving the texture and enhancing the nutritional content is primarily driving the Japan casein market. Besides this, the elevating need for natural and organic sources without the usage of artificial additives and hormones is further bolstering the market growth. Apart from this, the rising adoption of casein in the pharmaceutical industry to produce medications for anxiety, stress, fatigue, cancer prevention, etc., is also catalyzing the market across the country. In addition to this, the widespread product availability via e-commerce platforms is acting as another significant growth-inducing factor. Furthermore, the inflating demand for sports nutrition products among athletes and fitness enthusiasts is expected to fuel the Japan casein market in the coming years.

Japan Casein Market Analysis and Segmentation 2022-2027:

Competitive Landscape:

•The competitive landscape of the industry has also been examined along with the profiles of the key players.

The report has segmented the market based on product type and end use.

Breakup by Product Type:

- Rennet Casein
- Acid Casein

Breakup by End-Use:

- Food and Beverages
- Pharmaceuticals
- Cosmetics
- Industrial
- Others

Breakup by Region:

- Kanto Region
- Kinki Region
- Central/ Chubu Region
- Kyushu-Okinawa Region
- Tohoku Region
- Chugoku Region
- Hokkaido Region
- Shikoku Region
