The webcomics market consists of sales of online comics by entities (organizations, sole traders, and partnerships) that refer to a digital cartoon, comic strip, or graphic generated for online publication. Webcomics are typically published by artists on their websites, blogs, social media profiles, or art websites. Webcomics are created with digital art applications like Adobe Photoshop or Illustrator.

[Global Webcomics Market Trends](#)

The new romantic comic is a key trend gaining popularity in the webcomics market. Companies are publishing new romantic comics to fulfill the market demand and attract new customers. Romantic comics are comics whose plot is focused on romantic relationships. Romantic comics are liked by many readers as these create increased interest with comic plots. Key players are increasingly introducing new romantic comics to attract more readers and increase their revenue.
