PARIS, FRANCE, July 21, 2022

/EINPresswire.com/ -- The Iranian Resistance strongly condemns the endorsement of the shameful deal with the clerical regime and considers it the highest incentive for the religious fascism ruling Iran to step up terrorism and to use hostage-taking as much as possible for the release of its arrested terrorists and agents.

Many prominent jurists declared this to be a clear violation of UN Security Council Resolution 1373.

The treaty was endorsed despite facing not only the widespread and unified opposition of Iranian refugees, Belgium opposition political parties, and human rights lawyers and associations but also some parties and parliamentarians who are members of the government coalition, who attempted to remove it from the parliament's agenda, also called it a stigma that would prompt the clerical regime to commit further terrorism in Belgium and Europe.

Any repatriation of criminals that are responsible for terrorism and human rights violations, without serving legally mandated punishment, is to encourage and offer a ransom for terrorism and human rights violations and a breach of international laws and UN Security Council resolutions.

In a message to freedom-loving Iranians who protested outside the Belgium parliament on July 14 against this disgraceful treaty, Mrs. Rajavi said: The treaty’s actual substance and name amount to granting impunity to the religious fascism’ terrorism and to the mullahs, who were planning to carry out a mass killing in Paris, marking the biggest terrorist incident in Europe. However, with your round-the-clock efforts, you, and other conscientious people exposed the scandalous conspiracy internationally in a short period of time.
