

# Home Shopping Network Becomes Gold LEED Certified

*Shop LC reaches sustainability milestone through sustainable practices*

AUSTIN, TEXAS, UNITED STATES, July 26, 2022 /EINPresswire.com/ -- Shop LC is now Gold LEED Certified v4.1 (O+M), a certification for existing building and spaces. The Austin-based shopping channel reached this milestone at their primary business campus.

"LEED Certification is an important step of our sustainability journey," says

Sunil Agrawal, CEO. "I truly appreciate our team's passion and commitment towards the sustainability journey and the rigor invested to achieve Gold LEED Certification for our buildings."

Over the course of a year, the home shopping and ecommerce retailer updated existing processes and implemented new ones in pursuit of a more sustainable business. Employees helped by saving energy, conserving water, and embracing updated recycling and composting programs.

The Shop LC campus joins that of its parent company, Vaibhav Global Limited (VGL), in welcoming LEED Certified buildings. Previously, India-based VGL celebrated the Platinum LEED Certification of its jewelry manufacturing business.

The LEED rating system is the most widely used green building rating system in the world. It provides a framework for health, efficient, carbon and cost-saving green buildings. LEED certification is recognized world-wide.
