BURLINGAME SKIN CARE BRINGS SUNNY DAYS TO LOCALS IN NEED OF ULTHERAPY AND LASER SKIN RESURFACING

Here is the background on this release. The effects of sun damage may be more important to Bay Area residents compared to past decades. Summertime can bring a new stack of sunscreens and products to help shield a person from direct sunlight. Over time, the results of sun exposure might still become visible, however, in the form of dryer skin and brown spots. Bay Area residents noticing skin damage could be ready to find a Burlingame skin care clinic nearby. A treatment center focused on Burlingame laser skin resurfacing, and Ultherapy may be the answer to rejuvenating sun-damaged skin.
