Agricultural Films Market Industry Definition and Application:

Agricultural films increase crop production, protect the soil from unfavorable climatic conditions, prevent the proliferation of weeds, and ensure optimal utilization of the harvest. They are generally made from high-density polyethylene, low-density ethylene, and vinyl acetate. As they exhibit durability, optical properties, and anti-drip or antifog effects, agricultural films are used in green-house and low tunnel coverings, and soil sterilization and fumigation.

Note: We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Global Agricultural Films Market Trends and Drivers:

The increasing global population is leading to a significant rise in the consumption of agro-based products. This, along with the declining arable land and rising food shortage worldwide, represents one of the key factors contributing to the market growth. Furthermore, increasing investments by key market players in developing environment-friendly agricultural films from bio-based raw materials are positively influencing the market. Moreover, the widespread adoption of sustainable farming methods and the rising popularity of horticulture are anticipated to drive the market in the coming years.

Agricultural Films Market Segmentation:

The report has segmented the market on the basis on region, type and application.

Breakup by Type:

- Low-Density Polyethylene
- Linear Low-Density Polyethylene
- High-Density Polyethylene
- Ethylene Vinyl Acetate
- Others

Breakup by Application:

- Greenhouse
- Silage
- Mulching
- Others

Breakup by Region:

- North America: (United States, Canada)
- Asia-Pacific: (China, Japan, India, South Korea, Australia, Indonesia, Others)
- Europe: (Germany, France, United Kingdom, Italy, Spain, Russia, Others)
- Latin America: (Brazil, Mexico, Others)
- Middle East and Africa

Who are the Major Agricultural Films Market Key players?

The report provides a detailed analysis of the market leaders, including.

Ab Rani Plast Oy, Armando Alvarez S.A., BASF SE, Berry Global Inc., Exxon Mobil Corporation, Kuraray Co. Ltd, Novamont S.p.A., RKW Hyplast, The Dow Chemical Company and Trioplast

Industrier AB.
