The diving equipment market consists of sales of diving equipment by entities (organizations, sole traders, and partnerships) that are used by underwater divers for safety and protection. Diving equipment includes items such as tank bangers, a defogger, dive knives, writing slates, underwater lights, and a dive logbook. This diving equipment is used by underwater divers to help them to make diving activities possible, easier, safer, and more comfortable.

The introduction of eco-friendly wetsuits has emerged as one of the key diving equipment industry trends. Major companies operating in the diving equipment sector are focused on eco-friendly products to reinforce their position and meet consumer demand. For instance, in 2021, Aqualung, a US-based company that manufactures diving equipment launched an eco-friendly wetsuit named Xscape 3/4mm Wetsuit. This 3/4mm suit is suitable for diving in water temperatures ranging from 20 to 28 degrees Celsius, and it also has amazing four-way flexibility, making it suitable for all ocean sports. It is made entirely of non-neoprene fibers, making it quite comfortable to swim underwater.
