The India disposable gloves market was valued at \$303 million in 2017, and is expected to reach \$760 million by 2025, growing at a CAGR of 12.4% during the forecast period. In terms of volume, the natural rubber gloves segment accounted for more than two-fifth of the total market share in 2017.

Disposable gloves are widely used in the healthcare and food industries for protection from infections. It acts as a barrier between users and contaminations as well as infectious diseases.

The disposable gloves are used in various sectors such as medical, dental, food, chemical, oil & gas, and other industries for preventing cross-contamination. These gloves exhibit outstanding strength, dexterity, and comfort. In addition, these gloves provide chemical resistance and good grip to the users.

India disposable gloves market is expected to exhibit significant growth during the forecast period due to rise in awareness & concern of safety & hygiene among the population as well as growth in the number of end users. In addition, development of novel approaches and technological advancements further supplement the growth of the India disposable gloves market. However, less number of manufacturing plants and less production capacity in the country are expected to restrain the market growth. On the contrary, the growth in the healthcare sector and increase in healthcare expenditure are anticipated to provide new opportunities for the market players in the near future.
