The car care products market consists of the sale of car care products by entities (organizations, sole traders, and partnerships) that refer to high-quality chemicals that are used to prevent and fix damage to cars, such as scratches, to ensure that utmost care is provided to each part of the car and to retain the visual appeal of the car. These products are used to attain better shine, gloss, and longevity on various exterior and interior parts of cars.

[Global Car Care Products Market Trends](#)

Anti-microbial car care products are one of the key car care products market trends gaining popularity. Anti-microbial car care products help drivers and passengers of a vehicle protect themselves from various diseases and health issues caused by bacterial infection. According to the car care products market analysis, product manufacturers are accelerating the development of anti-microbial car care products to meet customer demand and strengthen their business presence across the globe. For instance, in December 2020, Turtle Wax, an American manufacturer of automotive appearance products, launched a revolutionary cleaner and disinfectant for car interiors named Byotrol24, a cleaner and disinfectant with 24-hour surface sanitizing action that can disinfect over 99.9% of germs, including cold and flu viruses,
