In their messages to the Free Iran 2022 campaign, the Resistance Units proved that despite the regime's massive efforts against them, they are growing stronger.

PARIS, FRANCE, July 28, 2022

/EINPresswire.com/ -- As part of the Free Iran 2022 campaign, 5,000 members of Resistance Units sent video messages, supporting the Iranian opposition's yearly convention and reiterating their resolve to overthrow the theocratic rule of the mullahs in Iran.

Messages came from every corner of Iran, and they had a common theme, "We can and we must," a slogan that was popularized by Mrs. [Maryam Rajavi](#), the president-elect of the [National Council of Resistance of Iran \(NCRI\)](#).

“

The regime has executed more than 120,000 people mainly members and supporters of the MEK since the 1980s, including a mass killing of 30,000 political prisoners in the summer of 1988.”

“We can and we must break the chains of despair.” “We can and we must free our country from the clutches of the mullahs.” “We can and we must overthrow the mullahs’ regime.” “We can and we must build a free and prosperous Iran.”

“We can and we must celebrate freedom.”

The resistance units held up photos of Mrs. Rajavi, who has become a symbol of hope and freedom for millions of people who are fed up with the tyrannical rule of the mullahs.

Organization of Iran (PMOI/MEK), the one organization that has been the absolute red line of the mullahs' regime in the past four decades.

The regime has executed more than 120,000 members and supporters of the MEK since the 1980s, including a mass killing of 30,000 political prisoners during the summer of 1988, which marks its 34th anniversary these days.

Ebrahim Raisi, one of the key figures of the 1988 massacre, has been the regime's president since August 2021. During his presidency, Raisi has ramped up executions, ratcheted up repressive measures, and engaged in a massive campaign to suppress MEK supporters and intimidate the public.

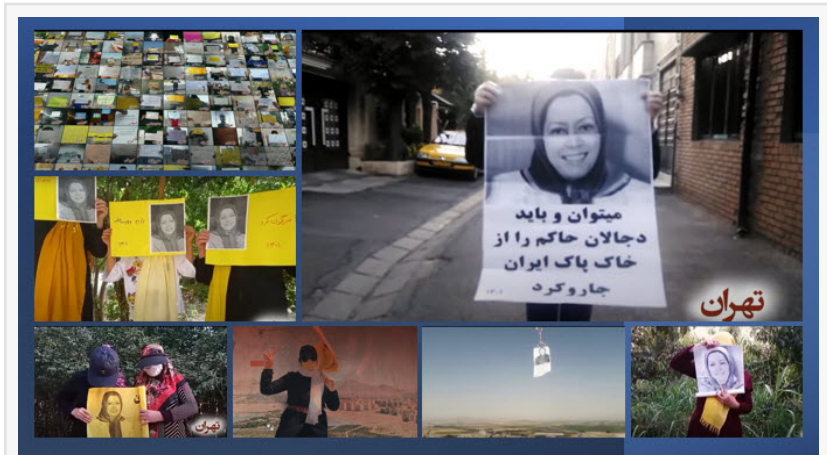

Political prisoners with ties with the MEK are given the harshest sentences and treatments.

Added to these efforts is a massive propaganda campaign by the regime's Ministry of Intelligence and Security (MOIS) to demonize and discredit the MEK and promote movements that have no substantive organization or presence inside Iran.

However, in their messages to the Free Iran 2022 campaign, the Resistance Units proved that despite the regime's massive efforts, they are growing stronger, more resolute, and more organized.

This growth has also shown itself in the expansive efforts that the MEK Resistance Units have led in the past year, especially since Raisi, notoriously known as the "butcher of 1988," became the regime's president.
