

# Composite Decking and Railing Market Industry Analysis and Forecast with a CAGR of 12.6% by 2030

*Composite Decking and Railing Market  
Global Opportunity Analysis and Industry  
Forecast, 2021–2030*

PORTLAND, OR, UNITED STATES, July 28, 2022 /EINPresswire.com/ -- The [composite decking and railing market](#) size was valued at \$2.6 billion in 2020, and is expected to reach \$9.2 billion by 2030, registering a CAGR of 12.6% from 2021 to 2030. Decking & railing is the process of installation of flooring and safety rails, generally outside the house, using materials, such as polypropylene and polyethylene, to enhance the beauty of buildings.

The composite decking and railing is driven by factors such as increase in trend for beautification of buildings and rise in spending capacity of people and living a luxurious life. In addition, advancement in material has led to use of strong and durable materials to build the decks and railing.
